

## Outsourcing - Your Path to Optimization

### Background

Outsourcing is one the best methods of optimization of manufacturing and services costs for an enterprise. According to WTO statistics, over 15% of global manufacturing and services are being outsourced. Businesses which ignore the outsourcing trend will be left behind while their competitors will gain competitive advantage through the outsourcing model.

### Course Overview

AttivaCorp's outsourcing training course was developed and adopted for European conditions jointly by AttivaCorp and TIMING Praha and will be conducted by experienced instructors from the USA.

The training program can be conducted according to your firms wishes in: a) Czech language; b) English; c) mix of Czech and English. For those of you who speak some or fluent English, we recommend the English class, as you will have opportunity to practice your business communication skills in English. Class size is small, from 6 to 8 students, so that individual attention is given to each student..

### Target Audience

Our Outsourcing course is suitable for Senior Corporate Managers and enterprise owners who are responsible for short and long term staretgic planning, services and production cost containment. It is also suitable for Financial Managers and Chief Financial Officers.

### Course Objective

The objective of this course is to bring the student to a basic understanding of the outsource model, its application and use. At the end of the two day course the student should have the ability to assess outsourcing as a viable path forward, and to create an effective outsourcing model for practical use.
